## CONVERSION PACKS

PLUG-INS FOR SONY® CLIP BROWSER 2.6

**Q: I have purchased Conversion Pack 2 and want to convert into „Windows Media File“, but I get a watermark in the exported video. Why?**

**A:** Conversion Pack 2 does not include the features of Conversion Pack 1. You need to purchase Conversion Pack 1 to get internet conversion in full mode.

**Q: How can I switch between Pal and NTSC?**

**A:** Under Tools and the“Conversion“ tab you can switch between PAL and NTSC.

**Q: Are your Conversion Packs also compliant with Windows 7?**

**A:** Yes, our Conversion Packs also run under Windows 7.

**Q: Which additional functions do your Conversion Packs offer?**

**A:** The Conversion Packs do not add additional functions to Sony ClipBrowser. They only remove the watermark..
