

Quality Assurance Engineer

THE BIG PICTURE

MainConcept-DivX LLC, a part of DivX, Inc (NASDAQ: DIVX), is seeking a Quality Assurance Engineer for our Tomsk, Russian Federation office.

We welcome candidates interested in software testing methodologies, including test design, iteration planning and defect tracking.

REQUIRED SKILLS AND EXPERIENCE

- 2+ years of experience developing and testing complex software applications in C\C++ \C#
- Experience testing native multimedia software, web applications, and/or device firmware implementations across a range of platforms including Windows, Mac, Linux, embedded systems and consumer electronics devices
- Experience using software test tools and knowledge of how to properly interpret their results
- Solid technical and intuitive understanding of how software works
- Experience with one or more scripting languages (e.g. Python, Perl, etc.)
- Working knowledge of software development lifecycle principles and QA methodologies
- Proficiency in test automation design and implementation for complex products
- Energy and desire to deliver high-quality software on aggressive schedules
- Excellent written and verbal communication skills
- Read/write in English (reading/writing of documentations and correspondence is required)

ADDITIONAL PREFERENCES & REQUIREMENTS

- A demonstrated ability to create test plans and define test cases from established project requirements, functional and design specifications
- Experience with Quality Assurance best practices and varied engineering processes (e.g., waterfall, agile, scrum)
- Experience working with distant teams
- Familiarity with DivX technology is a major plus

GENERAL REQUIREMENTS

- Russian citizenship
- Full employment
- Desire and ability to work on a team
- Professional with initiative

Please send your CV in English to job@mainconcept.ru or call (3822) 701-410
