

DV / DVCPRO

Comprehensive A/C Codec Library

Largest video codec libraries on earth, supporting nearly every major format in use today in both consumer and professional markets.

MainConcept offers various DV / DVCPRO Codec Packages that provide encoder and decoder components for DV, DVCPRO 25, DVCPRO 50 and DVCPRO 100.

They support consumer DV 25 Mbps (IEC-61834), DVCPRO 25/50 Mbps (SMPTE 314M), and DVCPRO HD in 720 50/60p and 1080 50/60i (SMPTE 370M). All major YUV and RGB color spaces are supported. DVCPRO HD delivers considerably higher picture quality since it allows video data rates at 100 Mbps and also supports the YUV 4:2:2 colorspace. The Codec Packages include everything for decoding and encoding DV, DVCPRO 25/50 and DVCPRO 100 frames.
