To support our team, we are looking for a:

SOFTWARE ENGINEER, FULL STACK (F/M/D) Full-time in Tomsk, Russia

We are looking for a developer who is comfortable coding on the front and back-end. You will focus on the development of desktop and web-based applications and coordinate with the rest of the team working on different layers of the infrastructure.

This is a full-time position with flexible working time in an excellent and friendly teamwork environment. We always use the latest versions of the frameworks and development tools.

THE EVERYDAY VIEW:

- Development of web-based multimedia applications.
- Participate actively in discussions with other departments located in other countries and different time zones. That's why you need great communication skills.
- Identify bottlenecks and bugs, and devise solutions to these problems.
- Work in a fast moving, team environment.
- Daily basis code review of your colleagues.

MANDATORY REQUIREMENTS:

- 3+ years software development in C++ with a good knowledge of the language specification and the latest C++11/14 standards.
- Proficiency with JavaScript, HTML5, CSS. Experience in Angular 9+.
- Strong background in data structures, algorithms, multithreading and understanding of object-oriented programming in C++.
- Familiar with various design and architectural patterns.
- Familiarity with code versioning tools (Git).

ADDITIONAL REQUIREMENTS:

- Agile Software development processes like Scrum, Kanban.
- Knowing C#, ASP.Net Core would be a plus.
- Multimedia development experience.
- Fluent in both writing and speaking English.

MainConcept is an equal opportunity employer committed to a diverse and inclusive work environment.

Please submit your complete application in English along with your salary requirements and availability by email to: office.tomsk@mainconcept.com
